# 2009

*Issue 57 June 2009*

Hello,

You may have noticed in the news recently that [Sir Ranulph Fiennes](#) successfully summited Mount Everest at the ripe old age of 65! This fantastic achievement makes Ran not only the first pensioner to reach the summit but also the first person to reach both the south and north pole on foot and climb to the top of the highest mountain on earth.

Our warmest congratulations go out to Ran who we at The Right Address have worked with for over 20 years. Not only has he overcome perhaps his greatest challenge (it was his third attempt at the summit!) but also raised over £3 million for a charity close to his heart, the Macmillan Cancer Support.

For those of you who have seen Ran speak at an event, you will know that his presence, stories, humour and inspirational message can bring a great deal to the event and mean a great deal to his audience.

This month therefore we are focusing on some other speakers and entertainers who can also bring massive added value to an event without busting the budget!
